Fall Semester 2021 University of Zurich

October 30, 2021

Authors (Student-ID): Yaejin Kim (19-771-492)

Philipp Pag (15-056-328) Matthias Hafner (08-055-741)

Abstract

The purpose of this report is to examine the risk and return relation in the Swiss stock market. To reflect the Swiss stock market, the Swiss market index (SMI) has been chosen as the index of reference. This report is divided into three parts: Risk and Return, Portfolio Construction and Variance Ratios.
